SUMMARY

Experienced frontend developer specializing in building scalable, high-performance web applications. Expert in JavaScript, modern frameworks, and component-based architecture, with a strong focus on user experience, accessibility, and performance optimization. Proven ability to lead frontend initiatives, mentor developers, and collaborate closely with design and backend teams.

EXPERIENCE

Front End Developer

Hyper Technologies

📅 06/2025 - Present

- Led the integration of a responsive web layout using modern JavaScript libraries, which enhanced user engagement, improving overall customer satisfaction metrics significantly.
- Collaborated with UX/UI designers to revamp the e-commerce site's visual aesthetics, leading to a significant reduction in bounce rates and an improved user retention rate.
- Implemented performance optimization techniques that decreased load times, allowing customers to access product pages and checkout processes much quicker than before.
- Contributed to the development of a new feature set utilizing React, producing an increase in page-time metrics, improving conversion rates across the platform.
- Conducted regular code reviews and collaborative brainstorming sessions, fostering a culture of continuous improvement, which led to a team-wide reduction in coding errors.
- Participated in cross-functional teams that executed multiple enhancements, resulting in an aggressive deployment schedule, increasing our ability to deliver quality features ahead of deadlines.

Operation Manager and Lead Tutor

Olastig Technologies

📅 10/2023 - 11/2024

- Schedules tasks, assigns work, monitors progress, and ensures projects stay on track.
- Provide one-on-one or group guidance, helping students and junior developers understand core web development concepts, best practices, and industry trends.
- Offer real-time debugging help and teach proven problem-solving habits using developer tools to build confidence.
- Conduct regular code reviews to ensure code quality, adherence to coding standards, and maintainability.
- Identify and help resolve issues, unblock impediments, and manage risks that may hinder project progress.
- Designs, implements, and optimizes operational processes and workflows.
- Facilitates communication between technical teams, leadership, clients and stakeholders.

Network Intern

Lapariah Technologies Limited

📅 09/2015 - 12/2016

- Diagnosing and resolving network, hardware (routers, switches), and software problems; providing helpdesk support for employees.
- Using tools to monitor network performance, applying security updates, backups, and patches, and ensuring system reliability.
- Creating and updating network configuration records, incident reports, and user guides.
- Work with senior IT staff, gaining exposure to enterprise tools and procedures.
- Setting up and configuring network devices, installing software, and assisting with LAN/WAN environments.

EDUCATION

Bachelor of Science in Computer Science

Federal University Lokoja

📅 11/2017 - 10/2023 📍 Lokoja, Nigeria

National Diploma in Computer Science

Kwara State Polytechnic Ilorin

📅 12/2013 - 08/2015 📍 Ilorin, Nigeria

CERTIFICATIONS

Career Essentials in Software Development by Microsoft and LinkedIn

Microsoft and LinkedIn

Web Development Bootcamp

Udemy

CCTV Installation and Maintenance

D-ROi Technology & Digital Solution

PROJECTS

Food Delivery App

Worked on a MERN stack food delivery app using React, React Hooks, Context API, Node.Js and MongoDB. This allows users create account, update account, make order etc.

Personal React Portfolio Website

Developed a fully responsive personal portfolio website using React, integrating React Icons, useState hooks, Swiper.js for interactive carousels, and EmailJS for direct form submissions with multiple contact options.

TECHNICAL SKILLS

HTML5	CSS3	Tailwind CSS	
Bootstrap	GitHub	JavaScript	React
NextJS	Responsive Design		

Cross-Browser Compatibility

Web performance optimization

Search Engine optimization   Git

API Integration.
